prior the annual Chapter meeting. When a proposed change is acted upon at the annual Chapter meeting the minimum 14 day voting period may be suspended.

F. The proposed change is then forwarded to the Society's Constitutional Consultant who brings the proposed change before the Society's Management Committee for approval. The proposed change takes effect when the Chapter receives written notice from the Society's Executive Director.

Rules are the next highest level of documentation of Chapter operations. They are generally established to facilitate the conduct of Chapter business, and to describe duties and responsibilities of officers and committees. They may be suspended or amended as follows:

A. Rules may be suspended by the EXCOM until the next annual meeting by a 2/3 majority vote of the EXCOM.

B. The Rules may be changed with a simple majority, meaning more than half of Chapter members choosing to vote.

### **Article 13 – Resolutions**

The Chapter may put forth such resolutions considered prudent and necessary to further the mission of the Chapter. Resolutions shall represent the best scientific thinking and data and represent the views of the Chapter. Such resolutions are drafted and recommended to the EXCOM by the Policy and Resolutions Committee. A temporary Policy and Resolutions Committee, including the Committee Chairperson, may be appointed by the President in the event that there is not an active Policy and Resolutions Committee when the development of a resolution is being considered. This committee may consist of any members of the EXCOM, any committee chairpersons, or any active members of the Chapter but should, insofar as practical, represent a professional cross section-of Chapter members. The process for drafting and passing resolutions is as follows:

A. The Policy and Resolution Committee drafts a proposed resolution which is then voted on by the Committee. The proposed resolution must pass the Committee with a 2/3 majority before being presented to the EXCOM. Proposed resolutions without a unanimous approval of the Committee may contain a minority report prepared by those Committee members opposing the resolution.

B. Once the Policy and Resolutions Committee has passed a proposed resolution, including any minority report, the proposed resolution shall be presented to the EXCOM who will review the proposed resolution. The EXCOM has the authority to modify the proposed resolution.

C. The EXCOM will then vote on the proposed resolution. The proposed resolution must pass the EXCOM with a 2/3 majority before being presented to the Chapter members.

D. After a resolution is passed by the EXCOM, Chapter members will be notified by correspondence of the proposed resolution and given a period of at least 30 days to review the proposed resolution

E. Following the 30 day period, Chapter members will be given a period of not less than 14 days to vote on the proposed resolution. The proposed change must pass the Chapter members choosing to vote with a 2/3 majority at which point it becomes an official resolution of the Chapter.

F. The EXCOM may, if it deems prudent, defer action on the proposed resolution until the annual Chapter meeting provided that Chapter members are notified by correspondence of the proposed resolution and given a period of at least 30 days to review the proposed resolution prior the annual Chapter meeting. When a proposed resolution is acted upon at the annual Chapter meeting the minimum 14 day voting period may be suspended.

G. All proposed resolutions considered by the Policy and Resolution Committee during the year, whether they are passed or not, shall be reported at the business luncheon of the annual Chapter meeting
