President's Message:

"Do or do not. There is no try." -Yoda

By Ernest Keeley, ICAFS President

If you haven't felt up to presenting something you have worked on for a while, commit yourself to presenting at our meeting this year. Commitment is a great way to motivate yourself to finish working on that paper you've had sitting around for some time. If you are up to date, look around at your colleagues and encourage them to present something. Many of us have often heard co-workers talk about their pet projects with great interest, but sometimes they are a bit tepid about telling anyone else. Tell them how interesting their work is and encourage them to present at our meeting. This type of encouragement is particularly important for junior staff or students that don't always have the confidence to present their work publicly. You can help by reminding them that our meeting has a wide range of topics, from the most applied to the most theoretical, and we have an audience that is enthusiastic about many different topics in fish biology and fisheries management. It can be a talk or a poster. In short, presenting something at our Chapter Meeting is a great way to renew your interest in projects you have worked long and hard on, or a way to encourage someone to get their feet wet.

Ernest Keeley,
AFS President

As this is an odd year coming up, our Chapter Meeting is heading back to Boise in March, 2011. Vice President Jason Vogel has been hard at work organizing and planning our meeting along with help from EXCOM. We welcome submissions of abstracts for talks and posters. Please consider presenting your work or encouraging someone else to present theirs.

We look forward to seeing you in Boise!

Public Education Committee Makes a Splash

By: Lauri Monnot

This summer the Public Education Committee teamed up with libraries in Idaho to promote knowledge of aquatic resources. Libraries in Idaho adopted a 2010 summer reading theme of 'Make a Splash' to encourage kids to keep up their reading skills over summer break. A water-related theme created the perfect opportunity for ICAFS members to participate.

Public Education committee members reached out in their communities to offer their expertise to help promote aquatic stewardship through local libraries. Our committee was able to partner with libraries in Boise, Coeur d'Alene, Garden City, Jerome, McCall, and Moscow. More than 300 children and many parents participated in interactive aquatic-themed activities.

Hands-on activities at the library events targeted learning about: aquatic and riparian wildlife communities, stream hydrology, water pollution, fish biology, fish identification, angling, and snorkeling.

Here are a few of our favorite quotes from participants:

- Stream hydrology – 'If I was a fish, I'd want to live in curly stream.'
- Fish biology/wildlife communities – 'I would not want to be a marco-a-verbit!'
- Water pollution – 'Well, no wonder they don't want to live there.'

Thanks to all the chapter members, resource professionals, parents and volunteers who helped make these events a huge success. Also a huge thank you to EXCOM and PUAFS who contributed mementos and prizes at the **Moscow and Coeur d'Alene events to help create lasting memories of how we all can promote aquatic stewardship.**

Northern Leatherside Meeting December 8, 2010

The next Northern Leatherside Meeting is scheduled for Wednesday, December 8th at the Uinta County Library in Evanston. If members need to phone in or would like to utilize web conferencing availability, please let Cassie Mellon know and it will be arranged. The meeting will begin at 9:30am and the room is available until 5:00pm. There has been some discussion of a possible post-meeting trip to Yellow Creek depending on time and conditions. Email Cassie Mellon at cassiemellon@utah.gov with any agenda items you have. The agenda will be sent out as the meeting gets closer.

2010 NW Fish Culture Conference

NOAA Fisheries Service's Salmon Recovery Division and the NW Fisheries Science Center invite you to the 61st Northwest Fish Culture Conference. December 7-9, 2010 at the Hilton Portland & Executive Tower in Portland, Oregon. General Registration is \$100. Students and retirees will be \$30. The title of the conference is "Northwest Hatcheries - Focusing on the Future."

Topic Themes include:

- Hatchery scientific review/consultation process
- Hatchery/wild interactions
- New Technologies
- Physiology, health, and nutrition
- Marine Aquaculture
- Sustainable fish culture
- Hatchery operation practices

For more information go our website: <http://www.nwr.noaa.gov/NW-Fish-Culture/>

ICAFS Scholarships & Support Grant Deadline: January 15!

The Idaho Chapter is pleased to announce four annually awarded scholarships and a student support grant for students attending Idaho schools. These are as follows:

- **Idaho High School Student Scholarship:** This \$250 scholarship will be awarded annually to an Idaho High School Senior that is planning to attend a college or university located in Idaho.
- **Idaho Undergraduate Student Scholarship:** This \$500 scholarship will be awarded annually to an undergraduate student that is enrolled at any college or university located in Idaho.
- **Idaho Graduate Student Scholarship:** This \$500 scholarship will be awarded annually to a graduate student that is enrolled at any college or university located in Idaho.
- **Susan B. Martin Scholarship:** This \$1000 scholarship is in memory of Susan B. Martin who led a distinguished career in natural resource management in Idaho. The scholarship is awarded annually to a graduate student attending any college or university located in Idaho.
- **TOP (Travel and Opportunity) Grant:** This \$50-750 grant will be awarded annually to any student enrolled at any Idaho school to assist the student's pursuit of activities consistent with the mission of the American Fisheries Society.

These scholarships and the support grant were developed by the Mentoring Committee, are funded by the Idaho Chapter, and are administered by the Public Education Committee. Information and application materials are available on the Chapter website (<http://www.idahoafs.org/scholarships.php>). The application deadline is January 15, 2011. Winners will be announced during the business luncheon at the 2011 annual meeting. For more information, please visit the Chapter website (<http://www.idahoafs.org/>) or contact Lauri Monnot, Public Education Committee Chair, at lauri.monnot@deq.idaho.gov or (208) 373-0461.

Call for Award Nominations

The Executive Committee is soliciting nominations for awards to be presented at the 2011 meeting in Boise. (These awards are independent from awards presented by the Native Fish, Mentoring, and Aquaculture committees.) This is a great opportunity to recognize those who have made important contributions to improve the conservation and sustainability of fishery resources and aquatic ecosystems. Please send nominations to Jim Fredericks at jim.fredericks@idfg.idaho.gov no later than **Friday, January 7, 2011**. If you have any questions please contact Jim via e-mail or at (208) 769-1414.

The awards, criteria, and nomination process are as follows:

Lifetime Achievement Award:

Criteria: Awarded to individuals who are either retired or within five years of retirement and have made significant and sustained contributions to improve the conservation and sustainability of fishery resources and aquatic ecosystems. This work may include, but is not limited to, making significant contributions in advancing fisheries and aquatic science, implementing important fish and aquatic management, or promoting the development of fisheries professionals.

Nomination Process: Submit a one to three page nomination detailing how the individual meets the criteria. The nomination **must** be supported by at least five Chapter members and their names and contact information should be listed on the nomination.

Distinguished Service Award:

Criteria: Awarded to individuals who have made significant contributions in furthering the work of the Chapter. This award is specific to service within the Chapter.

Nomination Process: Submit a nomination not longer than one page detailing how the individual meets the criteria. Although not required, nominations supported by more than one Chapter member will receive the strongest consideration. List the names and contact information of Chapter members supporting the nomination on the nomination.

Outstanding Fish Professional:

Criteria: Awarded to individuals who have made a significant contribution to improve the conservation and sustainability of fishery resources and aquatic ecosystems. This award is specific to service out-side of the Chapter.

Nomination Process: Submit a nomination not longer than one page detailing how the individual meets the criteria. Although not required, nominations supported by more than one Chapter member will receive the strongest consideration. List the names and contact information of Chapter members supporting the nomination on the nomination.

Richard L. Wallace Native Fish Conservationist of the Year Award

By: Vaughn L. Paragamian Chairman

Each year the Native Fish Committee sponsors the Richard L. Wallace Native Fish Conservationist of the Year Award. It's time to start thinking about the 2011 Conservationist of the Year. This award is given in recognition for outstanding achievements in the theatre of native fish conservation in Idaho. Achievements can be for a lifetime of work or extraordinary achievements throughout the past year. It can apply to a single individual or a group, or even an outstanding organization. This award is extremely prestigious and of extreme significance to all of us. Each year there are deserving individuals that quietly go unrecognized, so with that thought, please take a few moments to recognize your peers by drafting a paragraph or two outlining the accomplishments of your nominee and send it to Vaughn Paragamian at vaughn.paragamian@idfg.idaho.gov or call (208)769-1414. This award will be presented at the 2011 business meeting.

Excellence in Aquaculture Award

This ICAFS award is given in recognition for outstanding achievement in the field of aquaculture or aquaculture related research (i.e. fish health, hatchery research, fisheries conservation, etc). Achievements may include a lifetime of work or exceptional accomplishments in the past year. This award can apply to an individual or a particular facility (i.e. hatchery, lab, research station, university, etc). Please take a moment to recognize an individual or facility that uses aquaculture as an integral tool in order to meet program goals or conduct their research. Nominations should be submitted in the form of a single-page letter outlining why the nominee(s) deserve to be the recipient of this award. Please include workplace and contact information for the nominee(s). **Nominations must be received by January 15, 2011.** Please send nominations to Doug Munson at: 1800 Trout Rd., Eagle, ID 83616 or doug.munson@idfg.idaho.gov.

Outstanding Mentor Award

We are currently soliciting nominations for the 2011 Outstanding Mentor for ICAFS membership. Take a minute and reflect on the mentors in your career, or folks you have seen go out of their way to mentor students and/or young professionals within our organization. Recognition by our peers can be one of the most gratifying rewards we receive during our careers and past winners of this award have been humbled by the recognition the Chapter has given them.

Please submit nominees for the 2011 Outstanding Mentor Award to recognize a fisheries professional who has shown substantial devotion to assisting or mentoring Idaho fisheries students or professionals. The recipient of this award should meet or exceed the following criteria:

- A current or previous fisheries professional.
- Provided substantial assistance to Idaho fisheries professionals/students, with preference given to those who are or were active in ICAFS.
- Demonstrated a sincere interest/devotion in seeing students and professionals succeed.
- Provided ample learning and training opportunities for students and professionals to gain experience otherwise unobtainable without the assistance of the nominated professional.

Selection will be based solely on the above criteria and not on other things such as professional achievements. Nominations should be submitted in the form of a single-paged letter describing how a particular professional has met the defined criteria. Please include the name, workplace, and contact information for the nominee.

Submit the nomination letter on or before January 7, 2011 via email or snail mail to Steve Elle, Mentoring Committee Chair, at: Idaho Department of Fish and Game, 1414 East Locust Lane, Nampa, ID 83709, (208)465-8404, ext. 225, or Steve.Elle@idfg.idaho.gov.

Time to "Pony Up" Fish Folks!

The Fundraising Committee Needs Your Help! By: Chris Sullivan

They are now compiling items for the 2011 Annual Meeting. As you all know, the Idaho Chapter AFS does not charge annual fees or solicit funds except for the fundraising event at the Annual Meeting. Money generated from this fundraiser helps the chapter operate and provides support for scholarships and other important endeavors. You can contribute by joining us and spending some big bucks at the fundraiser, or you can contribute with a donation. Donations can be anything from money, artwork, gift certificates, fishing trips, tackle (fish-o-flies), or miscellaneous donated items. Please help our chapter by giving a donation today. When you decide how you can help, contact Patrick Kennedy at pat.kennedy@idfg.idaho.gov or Chris Sullivan at chris.sullivan@idfg.idaho.gov. They can be reached during the day at (208)465-8404.

2011 Annual Meeting Call for Papers!!

Native Peoples Fisheries: Perspectives of the Past, Present, Future

Date & Location:

March 2-4, 2011
Doubletree Hotel Riverside
2900 Chinden Boulevard
Boise, Idaho
(208)343-1871

Deadline for paper submission is December 22, 2011.

Please submit papers to Jason Vogel, 2011 Annual Meeting Chair
at jasonv@nezperce.org.

Get your paper submissions in today!!

BioSecurity Workshop

The 2011 Annual Meeting Workshop deals with the topic of hatchery and field sampling biosecurity will be presented on March 1, 2011 prior to the 2011 ICAFS Annual Meeting at the Doubletree Hotel. Topics to be presented will be:

- Hatchery biosecurity audit
- HACCP
- Pathogens of concern
- Exotic pathogens
- Disinfection processes.

This workshop will be limited to one day. This is a great workshop for hatchery and field biologists alike. Contact Doug Munson at doug.munson@idfg.idaho.gov for more details.

Guidelines for Paper & Poster Submissions

Please use the following guidelines when submitting a paper or poster.

Title: The title should be short and concise and represent your research.

Type of Paper: Papers may be submitted in one of the following three categories:

1. Oral Presentation, Contributed Paper, Related to Plenary Session: The afternoon following the morning plenary session we will be holding one or two sessions for papers relating to the theme of the plenary session. The theme of the plenary session is "**Native Peoples Fisheries: Past, Present, and Future**". Papers presented in these sessions must be related to the theme of the plenary session and there is room for up to eight papers in these sessions. These papers will be presented on the afternoon of Wednesday, March 3.
2. Oral Presentation, Contributed Paper, General: These papers may be on any subject related to fisheries or aquatic science, policy, or management. These papers will be presented on the afternoon of Wednesday, March 3; Thursday, March 4; or the morning of Friday, March 5 with the specific time of each paper determined by the program chair.
3. Poster: Posters may be on any subject related to fisheries or aquatic science, policy, or management. Posters and other materials should be capable of fitting onto a 4x4 foot space table space. You will be provided a rigid backing on which to hang the poster whereas you must provide materials for hanging such as tape or push pins. At least one author should be present during the poster session to answer questions. The timing of the poster session is yet to be determined.

Type of Presenter: Presenters should be identified as one of the following:

1. Professional: Any presenter not qualifying as a student
2. Student: A presenter qualifies as a student if he/she 1) conducted or assisted with the study while a student and 2) has not been employed in a professional level position (e.g. biologist, manager, etc.) for more than 4 years.

Presenters must also provide their affiliation, phone number, and email address.

Abstract: The abstract must be a single paragraph and be 300 words or less. The abstract should clearly and concisely state why you did the study, what you did, what you found, and what your results mean.

PLEASE HELP MAKE THIS AS EFFICIENT AS POSSIBLE FOR THOSE PUTTING THE AGENDA TOGETHER. USE THE 2011 Idaho Chapter Annual Meeting Paper Submission example (below) to submit a paper or poster.

Submit forms to: jasonv@nezperce.org

Submissions that do not contain the information required above will be returned.

2011 Idaho Chapter Annual Meeting Paper Submission Example:

Demographic and genetic analysis revealed a significant, but highly variable, impact of hatchery-origin fish on the population structure of Chinook salmon in the South Fork Salmon River, ID.

John Q. Doe, Presenter, Nez Perce Tribe, 208-555-5555, johnd@whatever.org.

Coauthors: Jane Q. Doe, Nez Perce Tribe, Jean Doe, Columbia River Inter-Tribal Fish Commission, Hagerman Genetics Lab, Jill Doe, Columbia River Inter-Tribal Fish Commission, Hagerman Genetics Lab, Jacob Doe, Nez Perce Tribe

Oral Presentation, Contributed, General

Professional

In this study, demographic and genetic analysis results were used to evaluate the impact of hatchery-origin (HOR) Chinook salmon on the genetic stock structure of natural-origin (NOR) Chinook salmon in the upper South Fork Salmon River ... up to 300 words.

2011 Idaho Chapter Annual Meeting Poster Submission Example:

Use of Thermal Marking for Age Determination of Salmonids.

Joshua Dent, Presenter, Idaho State University, 208-555-5555, johuad@isu.edu.

Coauthors: Jane Q. Doe, Idaho State University

Poster

Student

Thermal marking of salmonids ... up to 300 words.

In Memory of ...

On August 31, 2010, the Idaho Fish and Game and the fisheries community lost two members of their family: Larry Barrett and Dani Schiff. While we attempt to recover from the unexpected shock of their loss, let us always remember the good times we shared with them. Whether it was in the office or on the river, the memories we have will live on. Larry and Dani, you will be missed.

Lawrence T. Barrett

Lawrence T. Barrett, 47, Fisheries Biologist with Idaho Department of Fish and Game, died in a helicopter crash on August 31, 2010. The helicopter Larry was in was en route to fly Chinook salmon spawning ground surveys in the Selway River.

Larry started his fisheries career with IDFG in 1985. He directed the monitoring of angler use, catch and harvest of steelhead and salmon in the Clearwater, Snake and Lower Salmon rivers. He excelled in the people side of fisheries management. Larry was an effective advocate for angling opportunity and fishing rule simplification. He was a very empathetic supervisor and truly

cared for the personal well being of his crew. This trait was carried in the service that his employees provided to the salmon and steelhead anglers of Idaho. White sturgeon were Larry's conservation passion. He was active in sturgeon management and development of fishing regulations to allow continued sport fishing while reducing unintended impacts on these special fish. Larry was personally responsible for introducing hundreds, if not thousands, of kids to fish and fishing. Larry's commitment to sharing his passion for fishing with kids resulted in the Kids Steelhead Fishing Clinic, Free Fishing Day events, Trout in the Classroom and personalized outings with many kids. He was a tremendous ambassador for IDFG and the sport of angling.

Larry is survived by his wife, Cindy Barrett of Lewiston. He is also survived by his mother, a sister, four brothers, and many nieces and nephews.

Donations can be made to:

The Larry Barrett Youth Fishing Fund at
Twin Rivers National Bank
Lewiston, ID 83501
Phone: (208) 746-4848

Danielle JoAnne Schiff

Danielle JoAnne Schiff, 34, Fisheries Biologist with Idaho Department of Fish and Game, died in a helicopter crash on August 31, 2010. The helicopter Dani was in was in route to fly Chinook salmon spawning ground surveys in the Selway River.

Dani grew up in South Range, Wisconsin, where she spent her time riding horses and playing softball. She graduated from Northwestern High School in Maple, Wis., in 1994. She attended Northland College, where she started her career in fisheries. She then moved west, spending time in Bozeman, Mont., before following her heart to Idaho.

Dani started her career with IDFG as a temporary employee in 1997. She was excited about fisheries conservation and management and enrolled at the University of Idaho to finish her undergraduate education. She worked sampling wild fish on the Selway, Lochsa, North Fork Clearwater and Salmon rivers. Dani was promoted to the field crew leader on a project studying **bull trout life history in the North Fork Clearwater upstream of Dworshak Reservoir**. Dani's work provided an understanding of basic ecology and life history of bull trout throughout the watershed, including the 16,000 acre reservoir. Her study was the first to determine how bull trout used Dworshak Reservoir and how dam operation and pool fluctuations impacted them. This project provided her the opportunity for her to earn a M.S. in Fisheries from the University of Idaho. She was subsequently hired as a full time biologist to complete the 5 year project. Dani also worked three years for the Nez Perce Tribe Fisheries Department on the Tribal Hatchery Evaluation Program. She returned to IDFG in 2008 as a Fisheries Habitat Biologist. Her habitat work was primarily focused in the Potlatch River Basin; implementing stream habitat restoration projects associated with recovery of ESA listed Steelhead.

Dani's love of fish biology and ecology led her to fishing. She was an accomplished angler and loved to catch B-run steelhead on the Clearwater River and spring Chinook salmon in the Salmon and Clearwater rivers. Dani developed her love for wild rivers and whitewater through her work at Idaho Fish and Game. It became a personal passion. She was a very accomplished whitewater boater. Dani was a supporter of many local, nonprofit and state organizations that protect the wildlife and the land she loved. Dani is survived by her mother and father, brother and sister-in-law, and their children.

Donations may be made in Dani's honor to:

2010 Western Division AFS Student Colloquium

The 2010 Western Division AFS Student Colloquium took place in Moscow, Idaho at the beginning of October and was a huge success. Thirty-six students from Montana State University, University of Montana, Colorado State University, University of Idaho, and Idaho State University participated.

The Palouse Unit at the University of Idaho greeted students at a Welcome Social on Thursday, October 14th. Over food and drinks, students met and networked with one another as well as 10 professionals in the fisheries discipline. The following day students enjoyed a jet boat trip up Hell's Canyon and enjoyed a beautiful scenic tour of the deepest canyon in the United States.

On Saturday, October 16th, 11 students (including undergraduates Will Stacy and Evan Faulk) presented their research. Prizes were awarded to the top three presenters and congratulations and due to Scott Collins (1st place), Amy Long (2nd place), and Mariah Mayfield (3rd place). Students then went on a tour of the University of Idaho's wet lab facilities, which includes a burbot rearing facility. After the tour, students were treated to a BBQ at a local park where issues concerning student sub-units were discussed. Additionally, it was decided that University of Montana will host the 2011 WDAFS student colloquium. The closing social was held on Saturday night at EcoAnalysts, Inc. EcoAnalysts graciously hosted the social and displayed their work on taxonomic identification of macroinvertebrate samples, biological assessments, and consulting services.

The Palouse Unit of the American Fisheries Society would like to thank Western Division AFS, Idaho Chapter AFS, the Education Section of AFS, and the USGS Cooperative Research Program for their financial support.

Student AFS Palouse Unit: Student Profile

Corner

Matt Green—Graduate Advisor

What year of school are you in? I am a second year graduate student pursuing an M.S. in Biology.

Why did you decide to pursue a career in fisheries? I have always enjoyed being outdoors and learning about nature and all of its interactions. I grew up fishing most of the summers and became fascinated with all things to do with fish. I began my fisheries career out of high school, working for the Idaho Department of Fish and Game for several years and knew it was what I wanted to do.

What has been your favorite college class to date? Outside of biology, it was Outdoor Literature. Within the fisheries field, I would have to say Ichthyology. We did an interesting study on sculpin identification in the lab, and I am always amazed at all of the different forms of fish that fill up just about every available niche on the planet.

Who has inspired you the most as a young fisheries professional? There have been a number of folks that have had an impact on my fisheries career, but no one more than Greg Schoby. I worked with him in Salmon as he was working on his master's degree and we quickly became really good friends. I have never seen anyone as enamored with all things fish as he is. He will work all week with fish then go fishing for pleasure on the weekends. I learned from Schoby that you can have a serious career and still have a great time doing it.

What do you hope to accomplish as a fisheries professional? As a fisheries professional, I would like to work on protecting native fish and fish habitat in the west.

How important do you think that the AFS will be in your future career? I think I will always be involved with AFS. It is a great way to meet new professionals and get acquainted with people that you have previously known. The yearly state conference is something that I always look forward to, not to mention the various projects and workshops that AFS organizes throughout the year.

What is the best thing about being an AFS member? I think the best thing is the collaboration of research that goes on at the state meetings. I believe it is important for the fisheries community to communicate about what they have done and what they plan on doing. If you don't allow other professionals to know what you have done, then it is not worth doing.
